ART, OF BROOKLYN.

He is Still in a Critical Condition-Kelley Committed for the Grand Jury.

The shooting of Alderman David S. Stewart, of the Seventh ward, at three o'clock on Tuesday morning, was the occasion of considerable comditical circles yesterday. It was first reorted that the wound was only slight, and that the Alderman would not suffer any serious inconence from it; but this report, it now appears, was incorrect. The ball entered the Alderman's eft breast and the surgeons have not been able to extract it. Yesterday the Alderman was still

IN A CRITICAL CONDITION, wound may have a fatal result. As re ported in the Hebald yesterday morning, there was disturbance in Madden's liquor saloon, on the corner of Pearl and Myrtle avenues, at the time of the shooting; but all those who were present at the time agree that the discharge of the pistol was accidental. James Kelley, the man who had the distol in his hand, was struck by some person, and, iter getting out on the sidewalk,

DREW THE PISTOL FROM HIS POCKET. Then there was some pushing and hauling, and in the melee the weapon was discharged. The Aluerman, who happened to be in the doorway at the time, was shot.

Coroner Jones has not yet taken any ante-mortem ition, and will not do so until the physicians may that it is impossible for him to recover. STATEMENT OF THE ALDERMAN.

The Alderman made the following statement yesterday in regard to the unfortunate affair:-"I was

The Alderman made the following statement yesterday in regard to the unfortunate affair:—"I was standing on a corner waiting for a car when I was shot. The man came out of the store declaring he would shoot somebody. I had no altercation with him whatever. Only knew the man by sight, and occasionally when I met him I bowed to him. He had no quarrel previous to the shooting. I was not firmk. I have not been drunk for ten years past, and politics had nothing whatever to do with the affair. I did not speak to the man. I walked mybelf to the drug store. All the statements in the papers are wrong."

Stewart exclaimed,
"I AM SHOT!"
The Alderman put his hand to his breast, and the Hood oozed from the wound; they took him to Dr. Filler's, on Clinton street, and Kelley accompanied

Filler's, on Cinton street, and acties accompanied them.

Edward H. Gage, Jr., testified that he River to time the shoot.ng; he said:—Ir. Stewart at the time of the shoot.ng; he said:—Ir. Stewart and I waiked off a little way, and while I was talking with him the pistol explodes; Stewart and, "I'm snot;" I said, "I guess not;" he opened to vest, and we found blood; we then took am to take door's; Mr. Kelley accompanied us; Mr. Kelley accompanied us;

Willam H. Morris corroborated the testimony of the previous witness in regard to the anair. Witness facard Stewart say to Keliey, "If I die to-morrow I didn't mean to shoot me. I knew."

The Judge at this point suspended the examination and visited Aiderman Stewart. The injured man had changed his mind in regard to exonerating Keliey from all blame. He told the Judge he thought Kelley was using the pistol in a careless manner and should be punished for it. The Judge returned to the court and proceeded to resume the examination, when the prisoner, by the advice of his coursel, waived further examination and was held to await the action of the Grand Jury.

THE FALLING BUILDING CASUALTY.

Investigation Before Coroner Keenan-High

otton corner of 122d street and First avenue, which fell on the afternoon of the 17th inst., burying Charles Nellson, one of the laborers, deep in the tuins. Several witnesses were examined, and we give below the most important portions of the tesony elicited and the verdict of the jury. Charles Decker, of 138 East 113th street, deposed

that he is the owner of the buildings that fell in 122d treet, between avenue A and First avenue; they were three sixteen feet eight inch buildings, consisting of cellar, basement and three upper stories; they were built of hard brick, with lime and sand mortar; they were commenced the latter part of August, and the building went on in the usual way for about three weeks, when all the walis went over in a westerly direction; took down the walls and built them up again; we found the reason that they went over was that the bottom, on the westerly side, was soft; after they were topped out we found they were going towards the again; was then notified that the buildings were condemned as unsafe; the Superintendent of the department sent a committee of inspectors to examine the buildings; I suggested to the commit tee that the buildings could be pressed back and the westerly foundation carried down to solid bottom; they said the witness should see if Mr. Goodwin could snore the walls up, and if so, it Goodwin could snore the walls up, and if so, it would be satisfactory to them; made a bargain with Mr. Goodwin, and he snored the walls back to plumb; he also underpinned the westerly side of the wall, and below the original foundation found water; there had formerly been a creek running through this ground; pumped the water out with steam and kept the ground dry; the building inspectors were there every day, and when we got to the bottom for the foundation the inspectors said we had a hard bottom; then commenced a sixteen-inch wall; the buildings came down, and, the alarm being given, all the laborers excaped except deceased; in the opinion of the witness it was the weight of the braces that threw the walls over; think they fell just as the rear wall had been taken out; if there had been braces on the casteriy side don't think the walls would have fallen; the foreman had enarge of the work.

walls would have failen; the foreman had charge of the work.

Patrick Mullins, a mason and builder, had a contract for building the houses that fell; had full charge of the work, above the timber foundation; the cause of the fall, in my opinion, was from three causes; two are the same as given by Mr. Decker; the third cause was from the foundation being soft.

Thomas Veitch, an inspector in the Department of Buildings, deposed that he had charge of the district where the fallen buildings were situated; examined the ground before the foundation was commenced, and thought it sufficient to carry any building that would be put upon it, with proper precautions being taken, as Mr. Decker had explained; that work was done in the proper way; after two stories had been put up they settled and the walls were ordered to be taken down, which was done and they were rebuilt; was on the ground the day the buildings fell; asked the foreman, Patrick Molloy, when he intended to take out the the rear walls; he said he did not know; the witness replied, "Don't take the rear out till there are spur braces on the easterly wail;" in the opinion of witness the fail was occasioned by the want of the braces on the easterly side.

James M. McGregor, Superintendent of the Eulid-

braces on the easterly wail;" In the opinion of witness the fail was occasioned by the want of the braces on the easierly side.

James M. McGregor, Superintendent of the Building Department of this city, deposed that Sergeant Inspector West reported the failen buildings unsafe and Mr. Decker, on ceing notified, agreed to shore up the buildings in the best way; a committee reported that, if the same were screwed back plumb; the westerly wall be taken down and rebuilt on a proper bottom of laid timber and that the entire brick walls and foundations of all the buildings be taken down and be rebuilt; in the opinion of Mr. McGregor the cause of the fall was the softenthy of the foundation from the high tide having loosed the soil under them; don't think spir braces on the easierly side would have prevented the fail.

The cuse was then given to the jury, who found "that deceased came to his death from injuries accidentally received on the 17th day of November, 1871, by the failing of buildings in 122d street, where he was working, and the jury are of the opinion that the failing of the buildings was occasioned by unusual night tide undermining the foundation."

Thus by the verdict it will be seen that no one was to blame for the tumbing down of the unfinished buildings and sacrificing the life of an innocent man.

THE SHOOTING OF ALDERMAN STEW- FINANCIAL AND COMMERCIAL.

To morrow (Thanksgiving Day) being a legal holfday the banks and the various financial and commercial exchanges and boards of trade will be

On 'Change to-day wheat was firmer and holders advanced their prices in view of the probable closing of the canals, although no official notice to that effect has been given as yet, the chance remaining that a moderation of the cold weather may allow a resumption of canal traffic. Cotton was heavy and MONEY BASY.

The money market was quite freely supplied at six per cent, although some borrowers whose stand-ing or collaterals were not entirely acceptable had to pay seven per cent. But before three o'clock business was like test on Saturdays, and in the pressure to lend money for the two days inter-vening to the next loan market large amounts were pressed at five per cent. On governments business had been closed up early in the day at five and six per cent.

Paper was quoted at 7 a 12 per cent discount for all the various grades, long and short dates, entering into the class designated generally as prime. "Giltedged" sixty-day acceptances were negotiable at 7 a 8 per cent.

Foreign exchange was firmer, on the basis of 109 a 109% for prime bankers' sixty day sterling and 109% to 109% for sight bills. THE NEW FIVES AND THE "CALLED" '62'S.

There were no new developments to-day with ref-erence to the Treasury operations in redeeming the nve-twenties of 102, unless the general impression that the result will be the simple disbursement of eight to ten millions of coin for the "called" bonds, provision for the remainder of the \$100,000,000 having been already made in the subscriptions to the new five per cents and in the miscellaneous purchases of the freasury Department from week to week. In other words, the outstanding "called" bonds have been gradu-ally collected by the Syndicate and offset by subscriptions to the new loan, the Syndicate acing as a sort of clearing house for the government here and aproad. The Assistant Treasurer in this city paid out four militons in coin certificates to-day to parties presenting checks received from Washington in exchange for "called" bonds. It was thought the checks were not payable until Friday, December 1, but being dated November 28 instructions were asked for from the Treasury Department, and word was received to cash them on sight. The new five per cents will probably be placed on the list of government securities at the Stock Exchange on Friday. At least the committee will make a recommendation to that effect Friday morning. Today some small lots were sold at 110, the price closing 100% a 100%. The accrued interest is equivalent in currency to nearly one-half per cent, which would bring the bonds down to about 100%, or 1% below the par of gold. It was, doubtless, this condition of their market price that suggested the reports that a number of small subscripers would forier the 2 per cent deposit which they had already paid toward their subscriptions and refuse to take the bonds. All these matters will be more fully reveated, bowever, by the close of the week. THE GOVERNMENT SALE OF GOLD.

The government received bids for a total of \$4,095,000 gold at 110 a 110.40, and sold \$1,000,000 at 110.38 a 110.40.

GOLD-110% A 110%.

The gold market was lower, but became firm at the decline, chiefly on account of the heavy and steady buying of the "shorts," while a "war with Spain" was quite imminent, according to some of the wiseacres in the board. The course of the

GOVERNMENTS LOWER.

The decline in gold rendered governments weak at the morning board, when the chief feature was a large business in '62's at 111. The market became better later in the day, especially after the most was known, or thought to be known, as to the extent of the coin disbursements for cancelled '62's. The following were the closing street quotations:—United Tide the Cause of the Crash.

SOUTHERN STATE BONDS FIRM. The Southern list was firm, with a moderately active business in the new South Carolinas, which fell off to 34% but recovered to and closed steady at 35. The old bonds have at length yielded partially to the influences operative on South Carolina securities, although as original issues they were deemed above the effects of the threats of reputiation and the like. The Tennessees, Missouris and Virginias were especially firm. The following were the closing street prices:— Tennessee, ex coupon, 66 a 561/4; do. new, 651/4 a 65%: Virginia, ex coupon, 62 a 64; do. registere stock, old, 51 a 53; do. sixes, consolidated bonds, 64)4 a 65; do. sixes, deferred scrip, 28 a 29; Georgia sixes, 75 a 80; do. sevens, 85 a 90; do. sevens, gold, 92; North Carolina, ex coupon, 35 a 36; do. funding, 1806, 25 a 28; do. do., 1868, 20 a 23; do. new, 17 a 20; do. special tax, 14 a 15; Missouri sixes, 97% a 98; do. April and October, 31 a 32; Arkansas stxes, funded, STOCKS HIGHER AND UNSETTLED. The stock market, pursuing the tendency devel-

oped so suddenly by the prepayment of eight milhons of the redeemed bonds of 1882, was strong, with a light amount of business, the transactions after midday being almost nominal, in consequence of the general departure of brokers and dealers up town and out of town in an'icipation of the Thanksgiving holiday and festival. The easier tone of the money market and the actual prepayment of four millious of coin by the Sub-Treasurer assisted the firmness of the market, whose strength was more particularly illustrated in the case of Lake Shore at 89%, New York Central at 92% and Ohios at 42%, and generally an advance of nearly % per cent for the leading speculative stocks. Quite late in the day, just before the closing of the Long Room, the "bears" raided the market and lowered prices so that at the finale of the business quotations left off as nearly as might be half way between the extreme figures of the day, except for Pittsburg, which at this period suddenly advanced to 125% bid.
